

Daniel

Wonderland Map #2
Utah's Largest Math Event (qualifier)

Show all the combinations you tried.

First I took $9+9+9=27$
 the total #, 27, and
 I tried it into thirds and got $9+9+9=27$
 then I changed the #'s to something that worked $7+11+9$
 this one worked

How did you find the number of houses? Explain your thinking using words and/or pictures.
